https://github.com/alexadictiva

Frontend with more tan 2 years of experience dedicated to the creation and maintenance of websites and landing pages like lencerianiya.com, paseogigena.com.ar, the12a.com and cargotruck.us

Management of basic programming tools like HTML, CSS, JavaScript, PHP and Wordpress, also, design and prototyping apps like Figma; use HTML and CSS preprocessors like Pug and SCSS or SASS, and integration with Bootstrap and VueJs frameworks.

My goal is to add new experiences and learn new technologies that meet customer expectations.
